PART II: SUMMARY OF DISPUTE AND FINDINGS

Dates of Service		CPT Code(s) or Description	Amount in Dispute	Amount Due
From	To			
10-21-02	10-23-02	Inpatient Hospitalization	\$13,317.07	\$10,985.47

PART III: REQUESTOR'S POSITION SUMMARY

Claim should be paid at 75% as bill exceeds 40K.

PART IV: RESPONDENT'S POSITION SUMMARY

Reimbursement of implants at 75% of cost plus 50% produces a reimbursement amount for the implants above cost plus ten percent, which the Commission has previously determined to be fair and reasonable. ...Provider's mark-up on implants is not usual and customary, is not fair or reasonable, and is not consistent with the cost-containment provisions of the Act.

PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

This dispute relates to inpatient services provided in hospital setting with reimbursement subject to the provisions of Rule 134.401 (Acute Care Inpatient Hospital Fee Guideline). The hospital has requested reimbursement according to the stop-loss method contained in that rule. Rule 134.401(c)(6) establishes that the stop-loss method is to be used for "unusually costly services." The explanation that follows this paragraph indicates that in order to determine if "unusually costly services" were provided, the admission must not only exceed \$40,000 in total audited charges, but also involve "unusually extensive services."

Operative report indicates claimant underwent, "re-exploration of the lumbar laminectomies, L4-5 and L5-S1 bilaterally for excision of recurrent herniated disks; posterior lumbar interbody fusion with cages and autologous bone graft; posterolateral fusion, L4-5 and S1 bilaterally with BMP #4 spinal instrumentation with pedicle screws and rods, L4-5 and SI bilaterally; and bone grafting.

After reviewing the documentation provided by both parties, it **does** appear that this particular admission involved "unusually extensive services." In particular, this admission resulted in a hospital stay of 2 days and the insurance carrier indicated that this hospitalization was applicable to stop loss.

The requestor billed \$68,130.52 for the hospitalization. In determining the total audited charges, it must be noted that the insurance carrier has indicated some question regarding the charges for the implantables. The requestor billed \$47,802.00 for the implantables. The actual cost for the implants per invoices was \$22,346.60.

Based on a review of numerous medical disputes and our experience, the average markup for implantables in many hospitals is 200%. Since the requestor did not present any documentation supporting their charge, we will apply this average mark-up to the cost amount derived from the invoices in order to determine the amount to use in the total audited charges. This amount multiplied by the average mark-up of 200% results in an audited charge for implantables equal to \$44,693.20.

The audited charges for this admission, excluding implantables, equals \$20,328.52. This amount plus the above calculated audited

charges for the implantables equals \$65,021.72, the total audited charges. This amount multiplied by the stop-loss reimbursement factor (75%) results in a workers' compensation reimbursement amount equal to \$48,766.29.

The insurance carrier audited the bill and paid \$37,780.82 for the inpatient hospitalization. The difference between amount paid and amount due = \$10,985.47.

Based on the facts of this situation, the parties' positions, and the application of the provisions of Rule 134.401(c), we find that the health care provider is entitled to a reimbursement amount for these services equal to \$10,985.47.

PART VI: COMMISSION DECISION AND ORDER

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is entitled to additional reimbursement in the amount of \$10,985.47. The Division hereby **ORDERS** the insurance carrier to remit this amount plus all accrued interest due at the time of payment to the Requestor within 20-days of receipt of this Order.
